## GROUP'S PVT.LTD

**Ishwor Lamichhane (Ronan)** is a dynamic and visionary aviation entrepreneur based in Kathmandu, Nepal. As the Founder of **Mustang Groups Pvt.Ltd.** Mr. Ishwor Lamichhane (Ronan) has demonstrated exceptional leadership and expertise in the aviation and tourism sectors. With a strong belief in the untapped potential of Nepal's tourism industry, he has dedicated his career to driving growth and innovation in this field. As a pioneering figure in Nepal's aviation sector, known for his groundbreaking contributions to helicopter operations and tourism. As the Former chairman of **Heli Air Nepal Pvt. Ltd. (2014-2019)**, Ishwor introduced a revolutionary concept to Nepal and South Asia by establishing the South Asia first light helicopter (gyrocopter) operator based in Pokhara. This innovative venture marked a significant milestone in the region's aviation history, offering unique and efficient aerial solutions for tourism, transportation, and emergency services.

Building on this success, Ishwor established helicopter company he is now co-owner of **Mustang Helicopter Pvt. Ltd.** a position he has held since **February 2018**. Mustang Helicopter is a Civil Aviation Authority of Nepal (CAAN)-approved helicopter service provider, offering a wide range of services, including tourism charters mountain flights, and logistical support. Under his visionary leadership, the company has become a trusted name in Nepal's aviation sector, contributing significantly to the growth of tourism and aviation infrastructure in the country.

Ishwor entrepreneurial spirit, combined with his deep understanding of aviation operations and tourism management, has positioned him as a key player in Nepal's aviation industry. His ability to innovate and adapt to the evolving needs of the sector continues to drive the success of his ventures, making him a respected leader in the field. In **2023**, Ishwor Lamichhane further expanded his aviation empire by establishing **Mustang Airworks Pvt. Ltd.** a newly formed company dedicated to fulfilling the demand for aircraft parts and maintenance support in Nepal and south Asia . Recognizing the challenges faced by south asia aviation operators in sourcing reliable aircraft components and technical services, Mustang Airworks aims to Enhance safety and operational efficiency for Nepali aviation companies through timely maintenance and support. Boost the domestic aviation industry by ensuring quicker turnaround times for repairs and part replacements.

"The British Petroleum Company is the parent company of one of the world's largest oil resource groups. Air BP is the specialist organisation within the BP Group which markets on a world-wide basis, a comprehensive range of high quality Aviation Fuels, Aviation Engine Oils and Hydraulic Fluid."  
BPTO 2380 BPTO 2389 BPTO 25  
BPTO 2197 BPTO 274

## OILS & GREASES

Mustangairworks@gmail.com

"Shell has been committed to aviation from the very beginning of flight. Synonymous with quality and performance in aviation, Shell has provided fuels and lubricants to the entire aviation community, from the first pioneering flights to the current day. Shell is part of the aviation community and has contributed to aviation's rich heritage."

AeroShell Oil 100 / W100 / 120 / W120 / 390 / 500 / 555 / 560 / 750

AeroShell Fluid 41 / 12 / 3

AeroShell Grease 33 / 22 / 14 / 7 / 5

"By the time commercial aviation entered the jet age in the late 1950s, ExxonMobil's synthetic oils were leading the way, lubricating the engines and accessories of military aircraft and the first passenger jets. Today's modern jet engines require a lubricant that can handle extreme speed, temperature, and other stress without breaking down or forming deposits."

"Ideas for advancing aviation lubricant technology have continued to evolve for more than a century at ExxonMobil. You can be sure this innovative spirit will continue as new high-performance and fuelefficient aircraft technology appear on the horizon." Mobil Jet Oil II / 254

"Skydrol fluids are approved by all airframe manufacturers specifying phosphate ester hydraulic fluids, including the following material specifications:

- \* Airbus Industrie NSA 307.110
- \* Boeing Commercial Airplane Co. BMS 3-11
- \* British Aerospace BAC M.333.B
